

A NEW FUTURE FOR THE MITCHELL PARK DOMES

It is true, everyone wants a solution to save the iconic Mitchell Park Domes. The Friends of the Domes has recently put forward an exciting new vision that addresses all of the key issues. Funding for this vision would come from municipal and other public funding sources, private philanthropy, and Milwaukee County.

1 Addressing the Physical Limitations of the Conservatory

Our vision:

- * Restores the conservatory including the dome structures.
- * Expands gift shop and adds a boutique café.
- * Builds a NEW education building and event and office space.
- * Addresses energy inefficiencies.

#2 Revitalizing Mitchell Park

Our vision includes a major investment in the park itself: soccer field, outdoor plaza, children's garden, etc. Ongoing programming will result in a safe and active park. Mitchell Park is the only significant public green space on the near South Side (a densely-populated community with more children per capita than any other area of Milwaukee County).

#3 Creating a Sustainable Business Plan

Our vision:

- * Drives significant revenue through increased event, retail, and education space.
- * Increases revenue from admissions.
- * Creates a new Milwaukee County Parks/Friends of the Domes partnership to ensure a sustainable business model.
